الواجب المنزلي الأسبوعي

Unit Six: Soft Skills VS. Hard Skills**Read the following passage then choose the correct answer from a, b, c or d:**

It's a fact that women have made great achievements throughout history as well as men. Men have invented a lot of things: the alphabet, machines, rockets and so many other beneficial things. But historians now agree that women have invented a very important thing which has changed history. They invented agriculture as a result; they began to settle down in one place.

Before the invention of agriculture, men were hunters. They went through forests hunting for their food every day. Sometimes they killed animals, sometimes animals killed them. Life was quite difficult and serious for them. Women had to go out every day, too. They collected roots, fruit and grass. One day, more than 10,000 years ago, a woman dropped some grass seeds. She dropped them near a riverbank. To her surprise, they grew, and the first wheat was born which was later used to make bread.

The idea grew, too. Women planted roots and fruit trees. Then they could stay at home, do their housework, look after their children and their animals. Historians think that women kept the first domestic animals. Then, their husbands didn't have to go hunting for meat. They stayed at home. They built villages and cities. Men began civilization after women had invented agriculture.

Choose the correct answer from a, b, c or d:

- The main idea of the passage is about the invention of**
a) rockets. b) agriculture c) hunting d) alphabet
- Women had to go out every day to**
a) catch fish b) hunt animals c) chase animals d) collect fruit
