- My English lesson at four o'clock this afternoon.
a) is stating b) starts c) has been starting d) start
- I can't talk at the moment. I my homework.
a) do b) will do c) am doing d) have done

2--Read the following passage, and then answer the questions:

Jane Goodall the great conservationist was born in London, England, on April 3, 1934. On her second birthday, her father gave her a toy chimpanzee named Jubilee. Jubilee seemed to foretell the course Jane's life would take. From an early age, Jane was fascinated by animals and animal stories. By the age of 10, she was talking about going to Africa to live among the animals there.

As a young woman, Jane finished school in London, attended secretarial school, and then worked for a documentary filmmaker for a while. When a school friend invited her to visit Kenya, she worked as a waitress until she had earned the fare to travel there by boat. She was 23 years old.

Once in Kenya, she met Dr. Louis Leakey, a famous anthropologist. He hired her to assist him and his wife on a fossil-hunting expedition. Dr. Leakey soon realized that Jane was the perfect person to complete a study he had been planning for some time. Dr. Leakey and Jane began planning a study of a group of chimpanzees who were living on the shores of Lake Tanganyika in Kenya.

One of the first significant observations that Jane made during the study was that chimpanzees make and use tools, much like humans do, to help them get food. It was previously thought that humans alone used tools. Also thanks to Jane's research, we now know that chimps eat meat as well as plants and fruits. In many ways, she has helped us to see how chimpanzees and humans are similar. In doing so, she has made us more sympathetic towards these creatures, while helping us to better understand ourselves.

1- The author's purpose in writing this passage is to.....

- a) inform the reader of the importance of wildlife conservation.
- b) warn the reader about the challenges of working in Africa.
- c) entertain the reader with stories about chimpanzees.
- d) describe the work and life of Jane Goodall.

2- Which of the following is NOT one of the reasons Dr. Leakey chose Jane to work with him?

- a) She knew a lot about Africa.
- b) She knew a lot about African wildlife.
- c) She earned the money to travel to Africa on her own.
- d) She was interested in studying animals in the wild.

3- Jubilee seemed to the course Jane's life would take.

- a) break
- b) bredect
- c) pretect
- d) predict

4- Which of the following you suggest a summary for paragraph 1?

- a) Jane Goodall was interested in animals since she was a child.
- b) Jane Goodall was interested in telling stories about animal toys.
- c) Jane Goodall was interested in keeping toys since she was a child.
- d) Jane Goodall was interested in having her birthday party in Africa.

5- What can you infer (conclude) about Jane's early life?

- a) She belongs to a middle-class family.
- b) She left her family by the age of 10.
- c) She was a very rich woman.
- d) She had a high ranked job.

6- In your opinion, what do you think people should do based on Jane's studies?

- a) They should kill all chimpanzees that live in Kenya.
- b) They should stop conducting studies on chimpanzees.
- c) They should show more kindness toward chimpanzees.
- d) They should prevent women from participating in animal studies.
